REVISED POLICY

(60)

O.S.C. POLICY #3-20

APPEALS TO COMMISSION BY WAY OF HEARING
AND REVIEW UNDER SECTION 28: PROCEDURE

(1) Notices: Where Filed

A request for a hearing and review is made by the written notice required by section 28 (or subsection 3 of section 3) of The Securities Act. The request may be filed on behalf of a person or company primarily affected by a direction, decision, order or ruling of the Director or a Commissioner. The notice may be sent either by registered mail or filed with the Secretary to the Commission, 8th floor, 555 Yonge Street, Toronto. For this purpose, the Secretary has been designated by the Director to receive notices under section 28 on the Director's behalf.

(2) Filing Fee

Each notice or written request for a hearing and review must be accompanied by a filing fee of \$10.00 payable to the Treasurer of Ontario.

(3) Form of Notice or Request

The written notice or request for the hearing and review need not be a formal document so long as it identifies with sufficient certainty the decision being appealed from and the interest of the party filing the notice in the decision appealed from.

(4) Record of the Proceedings Appealed From

Section 20 of The Statutory Powers Procedure Act, 1971, requires the tribunal (the Director or the Commissioner as the case may be) to compile the

following record of the proceedings before him:

- (a) any application, complaint, reference or other document, if any, by which the proceedings were commenced;
- (b) the notice of any hearing;
- (c) any intermediate orders made by the tribunal;
- (d) all documentary evidence filed with the tribunal, subject to any limitation expressly imposed by any other Act on the extent to or the purposes for which any such documents may be used in evidence in any proceedings;
- (e) the transcript, if any, of the oral evidence given at the hearing; and
- (f) the decision of the tribunal and the reasons therefore, where reasons have been given.

(5) Transmittal of Record

Upon receipt of the request for the hearing and review, the Secretary to the Commission will obtain the record from the tribunal. This record will be then made available to the appellant or his counsel through the Staff Counsel assigned to the appeal at a mutually convenient time and place in order to assist the appellant in the preparation of his appeal. Where Staff Counsel has new evidence he proposes to introduce, not available at the original hearing, he will advise the appellant as to the substance of this proposed new evidence.

(6) Transcript of Oral Evidence: Proceedings

Where the tribunal has obtained a copy of the oral evidence and other proceedings before it this transcript will form part of the record referred to in (4). If the transcript does not form part of the record, the Secretary to the Commission will ask the person or company requesting the hearing and review to order and arrange to deliver for the use of the Commission at his or its cost two copies of the transcript of the proceedings which the appellant wishes reviewed by the Commission.

(61A)

(7) Order Dispensing with Transcripts

Where the appellant is of the opinion that a transcript of the oral evidence taken at the hearing before the tribunal is unnecessary to effectively deal with the hearing and review, or where for some other reason considered appropriate by the Commission upon application to the Commission, the Commission may make an order dispensing with a transcript of the oral evidence or directing the tribunal to furnish the transcript.

(8) Stay of Proceedings

Application may be made to the Commission prior to the hearing and review for an order staying the decision of the Director or Commissioner until the hearing and review is concluded.

(9) Statement of Points to be Argued:
Additional Evidence

Without limiting the introduction of new or additional relevant evidence by any party to the hearing and review, where possible, the Commission requests that five copies of a statement of the points to be argued or of the fact and law being relied upon be filed with the Commission at least 48 hours before the date fixed for the hearing and review.

(10) Setting Down for Hearing: Notice

Upon the record being received by the Secretary to the Commission, the Commission will designate a panel to hear the appeal and fix a date for the hearing and review. Notice of the time and place fixed by the Commission then will be sent to all parties by the Secretary.

C. Management and Employee Options

(a) Grant

Options to active management and other employees for incentive purposes and to employees pursuant to a stock purchase or profit sharing plan will be acceptable to the Director provided such options must terminate upon death or severance of employment except that upon the death of an

WEEKLY SUMMARY

WEEK ENDING 28TH MARCH 1974

NATIONAL POLICY 27 - RECOMMENDATIONS OF CANADIAN INSTITUTE OF CHARTERED ACCOUNTANTS - 3470 .13 - TAX ALLOCATION ACCOUNTING PRACTICES

In the light of the recommendations of the Ad Hoc Committee of Chartered Accountancy Firms serving the petroleum industry, the Canadian Provincial Securities Administrators have concluded notwithstanding the able presentation made by the representatives of the petroleum industry, that the recommendations of the Canadian Institute of Chartered Accountants regarding the accounting principles required to be followed by the petroleum companies whose securities are publicly traded in Canada ought to be followed. While having the greatest sympathy for the long standing practices followed by a substantial majority of petroleum companies who are members of either the Canadian Petroleum Association or the Independent Petroleum Association of Canada, we find ourselves unable to agree with their submission that as an industry they are unique and accordingly should be permitted to continue to make a special kind of financial disclosure. Their position has been explored by the Canadian Institute of Chartered Accountants and has been sympathetically reviewed by the Ad Hoc Committee of Chartered Accountants. If the views of the industry, as presented to us, were acceded to their financial presentation would continue to defy comparison with the results in other extractive industries. Accordingly, the Canadian Provincial Securities Administrators will require that the yearly and half yearly financial statements which have to be filed with them for periods ending March 31st, 1974 or following, must be in accordance with the recommendations of paragraph 3470 .13 of the CICA Handbook.

If the members of the petroleum industry continue to believe that this required financial presentation is either inappropriate or misleading, the administrators recommend that they again make representations to the CICA requesting a further review of the methods of financial presentation applicable to the petroleum industry.

ANGLO KENO DEVELOPMENTS INCORPORATED:

On application under Section 59 by Anglo Keno Developments Incorporated, the Commission ruled that the sale of up to 120,000 shares to Venture Properties Limited would be deemed not to be a distribution to the public and registration would not be required, but resale would require further application to the Commission and an application under Section 59 by Venture Properties Limited to resell the shares it is to receive in the above ruling was refused.

A new application will be considered following publication of next annual financials incorporating this transaction.

GOLDENBRIAR MINES LIMITED

On application under Ontario Policy III-03, the Commission ruled that the shares the promoters were required to be donated back to the company when a prospectus was accepted by the Commission, namely by M.C. McLeod 315,000 W.A.A. Breukelman 20,000, K.K. Weigand 20,000, A.S. Norrington 20,000 and K.R. SKYE RESOURCES LIMITED

On application under Section 132(1)(c)(iii), the Commission extended the time for the company to file comparative interim statements by 45 days on condition that an announcement is made forthwith by way of a press release informing the public and the company shareholders that the Commission has instructed them to do so in order that shareholders be in a position to draw the inference that the Commission is not completely happy with the company's conduct, and further that when the financial statements are subsequently issued, a reference is incorporated therein that the Commission had directed such a press release be made as to the delay.

VCA CORPORATION LIMITED

On application under Section 90 by Ethyl Corporation, the Commission ruled to declare a proposed takeover of VCA Corporation Limited by Ethyl Corporation to be an exempt transaction on condition the company files with the Commission and sends to the shareholders in Ontario the same information as is sent to shareholders in the U.S.A., together with a notice of the extension of the offer until 5th of April 1974.

SEVERN INVESTMENTS COMPANY LIMITED

On application under Section 1(9) of the Business Corporations Act, the Commission declared Severn Investments Company Limited to no longer be offering its shares to the public so long as:

1. The order will remain effective only as long as Severn has fewer than fifteen security holders.
2. The order remain effective only for so long as there is "no trade by or on behalf of Severn of securities of Severn by sale to one or more than one exempt institution, or by private placement, or by offering to the public by information circular or by prospectus, or by any other means, or by any combination of any of the foregoing means save and except for:

- (a) the issuance by Severn of any security (except on fixed assets and shares and indebtedness of subsidiaries) given in the ordinary course of business to any bank or banks or similar institutional lender to secure any indebtedness as incurred or as of the date of any renewal or extension thereof; or,
- (b) the granting of any hypothec, mortgage, vendor's privilege, lien or other encumbrance on property acquired or constructed by the Company or by any subsidiary or any note, acknowledgement or other obligation (whether or not the same is secured in any way) which was assumed, created, guaranteed, reserved, issued or given to secure any part of the purchase price of such property or construction cost and any extension, renewal or refunding of any such hypothec, mortgage, privilege, lien, encumbrance note, acknowledgement or other obligation, provided that the principal amount of the indebtedness secured thereby or payable thereunder at the time of such extension, renewal or refunding is not increased.

ONTARIO SECURITIES COMMISSION

W E E K L Y S U M M A R Y

WEEK ENDING 4TH APRIL 1974

THE COMMISSION MADE AN ORDER UNDER SECTION 20 IN
RESPECT TO CANADA DEVELOPMENT CORPORATION AND GIVE
HEREUNDER THEIR REASONS FOR SO DOING

The Commission has been informed by the Canada Development Corporation (CDC) of its intention to file a preliminary prospectus on or before April 30th, 1974, in accordance with the requirements of section 35 of The Securities Act (the "Act") with a view to obtaining the expressions of interest from prospective purchasers permitted by section 36(2)(c). It will then proceed to file a prospectus which, if accepted, will permit the distribution of a substantial quantity of CDC's securities to members of the public throughout Ontario. It is further CDC's intention to make similar filings in each of the provinces and territories throughout Canada. The principal distinction between this and other issuers is that, because the corporation is sponsored by the Government of Canada for the purposes declared in the incorporating statute, the announced objective of this initial public distribution is to obtain the widest dissemination of CDC's securities among the eligible residents of Canada. To achieve this objective, CDC feels that the securities should be offered not only through the investment community, the registered investment dealers and brokers supervised by securities administrators in the provinces and territories ("securities administrators") but that this community should seek the assistance of the network of offices of the Canadian chartered banks to which the Bank Act (Canada) applied (the "banks").

In the past, this large distribution system, the banks, investment dealers and brokers, has only been utilized to sell such government guaranteed securities as Canada Savings Bonds. CDC, while government sponsored, has and expects to get no government guarantees. Indeed, we anticipate from the representations made to us that the face page of the CDC prospectus will clearly describe the nature of CDC's securities as "speculative". This proposed method of distribution gives rise to numbers of concerns. The potential

problems raised if the banks were to solicit directly the purchase of securities by their banking customers by persons, who while having many admirable qualities, are not qualified as securities salesmen or brokers, was not a prospect that securities administrators were prepared to accept without expressing their concern.

The role and responsibilities of the dealer community and their salesmen are clearly delineated in Ontario and elsewhere in Canada through the legislation and regulations, including conditions of registration which the securities authorities administer. The salesmen must demonstrate a minimum standard of competence by passing the Canadian Securities Course. They are supervised by executives who must have broad experience in the securities field and who, in many cases, have passed more advanced courses. The legislation and policies require declarations of interest. The "know your client" rules are aimed at ensuring that thought should be given to the needs of the prospective purchaser and the suitability of the particular issue to those needs. There are numbers of additional requirements.

The banks do not hold themselves out as brokers, investment dealers or investment advisers. Indeed, there is no evidence they seek this role. In an ancillary and incidental way, they have provided some of these services at the request of individual banking customers. Excepting for the kinds of government guaranteed securities mentioned previously, the banks have not actively solicited either the investment business of their customers or actively recommended the purchase or sale of particular securities excepting for deposit instruments and their own securities. We are advised that there has been some participation by individual banks as underwriters but this relatively minor activity has not come to the Commission's attention possibly because of the prohibition in the Bank Act preventing the name of a bank appearing in a prospectus. It is CDC and its advisers who have asked the banks to act as order takers so as to effect the widest possible distribution.

The managing underwriting group (the "group") we are informed will consist of four registered investment dealers. These are Levesque, Beaubien Inc., McLeod, Young Weir & Company Limited, Richardson Securities of Canada, and Wood Gundy Limited, all of whom are registered under the Act. The Commission has received written assurances from the group concerning the method it is proposed to adopt, subject to its approval by each securities administrator, in the distribution of CDC. These assurances are embodied in the terms and conditions of

our order. We are advised that both the group and the banks wish clear direction as to a method of distribution which would, on the one hand, permit the widest distribution in Ontario of the proposed issue, and, on the other hand, would avoid the concerns indicated above. We view it as being in the public interest to offer our comments and confirm our conclusions by an order under section 20 of the Act.

Based upon these assurances, we are satisfied that it would not be prejudicial to the public interest to permit the banks to accept expressions of interest in and orders to purchase the securities of CDC. It is therefore ordered that the provisions of section 6 of the Act should not apply to any trades made by a bank, firstly in accepting expressions of interest following the filing of a preliminary prospectus by CDC on or before April 30th, 1974, and the acceptance and transmittal of orders to purchase by the banks as agents of the registered dealer group following the issuance of a receipt for the CDC prospectus in accordance with the requirements of section 35 and following of the Act, subject to the following terms and conditions:

- (1) The banks will act as agents for the group in accepting expressions of interest and purchase orders and, for these purposes, may deliver preliminary prospectuses and prospectuses on behalf of the group.
- (2) The banks shall not directly or indirectly recommend or otherwise solicit the purchase of the securities of CDC excepting by making available copies of the preliminary prospectus and prospectus to persons requesting them.
- (3) CDC and the group, in addition to the usual advertising, will be permitted to inform the public that copies of the preliminary prospectus and prospectus may be obtained at branches of the banks as well as registered dealers in Ontario, and that orders for the securities of CDC may be placed through the banks.
- (4) Following the filing of the preliminary prospectus by CDC, the banks may accept and transmit expressions of interest to the group in accordance with the requirements of section 36(2) of the Act and the group shall maintain the record of distribution of the preliminary prospectuses required by section 37.

- (5) In the event that an amendment to the preliminary prospectus is required under section 40, it will be the responsibility of the group to transmit the amendment in accordance with subsection 3 to each recipient of the preliminary prospectus through either the agent bank or directly to the party named on the record maintained in accordance with section 37.
- (6) The notices, circulars, advertisements, letters, and other communications permitted under section 36(2) may state that a copy of the preliminary prospectus may be obtained from the banks as agents for the group.
- (7) For the purpose of the "know your client" requirements, the group is not required to make any special enquiries concerning the suitability of the purchase for the particular purchaser apart from assuring that the prospective purchaser receives the preliminary prospectus, the prospectus and any amendments in accordance with the requirements of the Act.
- (8) In compliance with section 64, the group may arrange to have the banks deliver preliminary prospectus and prospectus on their behalf but the ultimate responsibility for their delivery shall rest with the group.
- (9) Arrangements concerning the transmittal and acknowledgment of expressions of interest, orders to purchase, funds, the delivery of the confirmation of the transaction by the group to the actual purchaser in compliance with section 67, and the delivery of the securities to the customer may be made at the discretion of the group and the agent banks by either the group or the banks providing the confirmation must be made to the party placing the order with the bank with the ultimate responsibility resting with the group.
- (10) This order shall remain in force until the Commission is notified by the group, in accordance with section 54(2), that the group has ceased to engage in the distribution to the public of the securities through the prospectus contemplated by this order.

O.S.C. 3-04

PRELIMINARY PROSPECTUSES AND PROSPECTUSES

1. COPIES REQUIRED FOR PROCESSING AND FILING

To facilitate the processing of preliminary prospectuses and to ensure that copies are immediately available in the public files, the following number of copies will be required:

(a) Preliminary Prospectuses:

- (i) All Issuers: four copies of the preliminary prospectus including a copy signed and certified in accordance with the requirements of the Act, and
- (ii) Supporting Material: two signed copies of all reports and consents required.

(b) Prospectuses:

- (i) Industrial, Investment, and Mutual Funds - five copies including a copy signed and certified in accordance with the Act.
- (ii) Mining and Oil: six copies including a copy signed and certified in accordance with the Act.

2. RECEIPTS FOR PRELIMINARY PROSPECTUSES AND PROSPECTUSES

(a) Preliminary Prospectus - Where Registration Necessary

Where the preliminary prospectus discloses a proposed underwriting by an underwriter who is not then registered or a proposed distribution by the issuer directly to the public through a security issuer registration, the Director may issue a receipt for the preliminary prospectus provided there is contemporaneously filed with the Director an application for the appropriate class and category of registration. Regard must always be had to the fact that the limited trading permitted by section 36(2) of the Act following the filing of a preliminary prospectus can only be done by registrants.

(b) Prospectus - Where Registration Necessary

Where the preliminary prospectus discloses the necessity for obtaining either an underwriting or security issuer registration, the Director will only issue a receipt for a prospectus when he is contemporaneously prepared to grant the appropriate registration. (As a matter of procedure, the Commission's Deputy Director, Filings, and Deputy Director, Registration, will co-ordinate their efforts to achieve this result).

(c) Prospectus: Where the Issuer is in Default in Complying with Statutory Requirements

Where the issuer is under an obligation to comply with the Proxy and Proxy Solicitation requirements or the Financial and other Disclosure requirements of the Act and the regulations (including by reference the appropriate requirements of the Ontario Business Corporations Act) and is in default as to any of those requirements the Director will normally decline to issue a receipt for the prospectus until the default is remedied.

(d) Prospectus: Insiders in Default of Filing Requirements

Where a director or senior officer of the issuer is in default in complying with the insider trading reporting requirements of either The Securities Act or the Ontario Business Corporations Act as the case may be, the Director will normally decline to issue a receipt for the prospectus until the default is remedied.

3. FAILURE TO PROCEED WITH FILING: ABANDONED FILING

Where there is no positive response to the first or any subsequent deficiency letter issued by the Commission following the filing of the preliminary prospectus for a period of 60 days following the date of the letter, unless exceptional circumstances are shown to the Director, he will view it as an abandoned filing and instruct that the Commission's files be closed and public notice of the fact be published in the Weekly Summary.

Under S.8(2) the Commission has, by mutual agreement,
suspended the company's registration as a securities
dealer pending audit clearance that all obligations to
clients have been satisfied as the company has indicated
it is discontinuing its business.

KOFFLER STORES LIMITED

Under S.59 the Commission ruled that the sale of 60,000 shares of Koffler Stores Limited by Bernard Glazier as to 20,000, Jack Kirk as to 20,000 and Irving Bain as to 20,000 would be deemed not to be a distribution to the public if sold through the facilities of and subject to the conditions established by the Commission with the Toronto Stock Exchange and registration is not required provided the transactions completed within three months of this date.

(Note: This order in effect continues the order dated 8th November, 1973, that had become invalid by virtue of the original three months having expired).

DUSTBANE ENTERPRISES LIMITED

On Application under S.59 by Gerald D. Lafortune the Commission ruled that the sale of 356,130 shares of Dustbane Enterprises Limited to Monte Villa Enterprises Limited would be deemed not to be a distribution to the public and registration would not be required provided that any resale of the shares by Monte Villa Enterprises Limited or any change in the ownership of the shares of Monte Villa Enterprises Limited shall be the subject of further application to the Commission and on condition that the transaction is effected within three months of this date and Insider Reports are filed within three days of the transactions being effected.

GLOBAL COMMUNICATIONS LIMITED

Under S.132 the Commission refused the application to file eight months interim financial statement to 30th April, 1974, for sending to shareholders and filing with the Commission in lieu of an interim financial statement to 28th February, 1974.

So far as the projected financial statement covering eight months to 30th April, 1974, the Commission considers this to be timely disclosure but does not replace the legal requirement for an interim statement the comparatives from which would be required in the year following.

NEW ONTARIO POLICY 3-18A

(55 G)

SECTION 59 ORDERS: APPLICATIONS FOR EXTENSIONS OF TIME

Policy 3-18 states, in part, as follows:

"Since (an) application must be predicated on an intention to sell orders with respect to 'control' persons will normally permit the sale of the specified number of securities for a period of not more than three months".

The Commission has recently received a number of applications which effectively request an extension of the three month limit fixed by the original order. It is concerned by the indication in the renewed application that the original application might not have been made with a real and present intention to dispose of the securities which were the subject of the application.

Before granting an exemption, the Commission must be assured that the applicant is not in possession of any material facts concerning the issuer which are not generally known and which, if known, might reasonably be expected to affect the market value of the issuer's securities. If the applicant intends to dispose of the securities three months is a reasonable time to market them in an orderly way. If some special circumstance develops which prevents their sale either in whole or in part, the Commission will consider amending the order by extending it for a further three months providing:-

- (1) the application for amendment contains a reasonable explanation as to why it was not possible to complete the sales within the time limit;

- (2) is accompanied by an affidavit made by the applicant stating:

"The applicant for whose account the securities to which this application relates intends to sell these securities and hereby represents that he has no knowledge of any material change which has occurred in the affairs of the issuer of the securities which has not been generally disclosed and reported to the Commission, nor has he any knowledge of any other material adverse information in regard to the current and prospective operations of the issuer which have not been generally disclosed".

- (3) is accompanied by a \$25 fee.

A further request for an extension will require a completely new application.

IN GENERAL

Policies are guidelines only. The Commission and the Director will exercise their discretion to meet special or unusual circumstances. This will be particularly true where an issuer is engaged in the exploration and development of both mining and oil-natural gas properties.

Where the securities of the issuer are listed, the appropriate stock exchange will be consulted.

Add on page 3 a new:

- (10) Generally an offer by a selling shareholder shall not be proceeded with under a prospectus where any option permitted under paragraphs (4) and (5) has not been exercised and all of the shares underwritten and optioned have not been sold.

EXPLORATION COMPANIES

A company which proposes to participate primarily in exploration for new properties should have a liquid position after deducting the costs of financing of at least \$100,000 available for this purpose.

Again this reflects a previously unwritten policy developed by the late Dr. Hans Frohberg, then our consultant, who advised that this was a minimum amount which should be available to an experienced management team in order to embark on an exploration program.

OFFERING OF WARRANTS

Warrants should not be offered by a mining or oil company unless there is evidence acceptable to the Director that the property which the company owns and is developing is of better than average merit.

Unless there is some demonstrated potential attaching warrants to the offering is misleading and suggests a merit which is not warranted at an early stage of exploration or development.

VENDOR CONSIDERATION

1. All vendor shares shall be in escrow.
2. The vendor will not be permitted to apply a "cash" consideration against the purchase of "free" treasury shares.

No change.

No change.

O.S.C. 3-03

3/...

VENDOR CONSIDERATION (Contd.)

3. Subject to 4 and 5 in a mining company having an authorized capital of 3,000,000 shares or greater the maximum number of shares to be permitted for the outright purchase of mining properties or claims shall not exceed 750,000 shares. If the authorized capital of the company is less than 3,000,000 shares, the maximum allowable vendor consideration will be reduced pro rata to the total authorized capital.

Minor language changes for greater certainty. The old paragraph 1 has been sub-divided for clarity.

4. Where the vendor, after acquiring the property, has expended money on it in exploration and development, which is demonstrated in the consultant's report to be of continuing benefit to the company, additional share consideration may be considered paralleled with underwriting and option prices or the net price to the treasury in the case of a best efforts offering. The cost of staking, preliminary examination and other related costs incurred by the vendor in determining whether to acquire the property shall not be included for the purpose of considering additional consideration. These additional vendor shares will be escrowed on the same basis as the basic vendor shares.

No substantive change.

VENDOR CONSIDERATION (Contd.)

5. Where there is cash consideration for the properties purchased, the number of vendor shares will be reduced paralleled with the minimum underwriting and option prices or the proposed net price to the treasury in the case of a best efforts offering. The number of shares available to be released from escrow as "free" vendor shares will first be eliminated by reducing the allowable vendor consideration by one share for the cash consideration netted by the treasury for one share to the maximum number of free shares allowed. In the event there are insufficient free shares, the pro rata reduction will be two escrowed shares.

RETAINED INTEREST BY THE VENDOR

Unless explained to the satisfaction of the Director the vendor, or any insider, associate, affiliate, subsidiary of the vendor, shall not retain any interest in the property vended or in any property adjacent or contiguous to the property vended.

This is an attempt to clarify the position where the purchase price for properties is to be paid partly in cash and partly in shares.

New. Vendors have attempted to retain interests so that the public financing is used to prove up their retained interest or property. An individual may promote two companies, vending contiguous properties covering a mineralized zone in two parcels and receiving two vendor considerations. This policy is designed to give warning that this practice will be questioned.

TRANSFERS WITHIN ESCROW

Consents to transfers within escrow will normally be granted where:

1. The transfer will be of benefit to the shareholders generally;
2. The transfer is necessary to settle an estate;
3. The transfer will not result in a change of beneficial ownership; or
4. Where the proposed transfer represents a number of shares less than 1 per cent of the issued and outstanding shares of the company concerned and the transferor has not made any transfer of escrowed shares within the preceding twelve months.

The applicant for transfer must furnish the Commission with full details as to the circumstances leading to the request for permission to transfer. The consent of all or a majority of the shareholders to the proposed transfer may be required.

This section is not new. It was inadvertently omitted in the last publication of the policy. This draft has modified it in form only.

A STATEMENT TO THE ONTARIO LEGISLATURE

BY

HON. JOHN T. CLEMENT

MINISTER OF CONSUMER AND COMMERCIAL RELATIONS

INTRODUCING THE SECURITIES ACT, 1974

JUNE 7, 1974

Mr. Speaker:

I would like to announce my intention to introduce today a New Securities Act for the Province of Ontario.

This New Act achieves four important objectives. First, it brings together in a more ordered and systematic way the various amendments to the present Act which was passed in 1966.

Secondly, this New Act will implement major new policies recommended by the 1969 Report of the Canadian Committee on Mutual Funds and Investments Contracts, a 1970 Ontario Securities Commission Report on Disclosure and the December 1973 Report of the Select Committee on Company Law Regarding Mergers and Amalgamations.

Third, this legislation has been discussed in detail with representatives from other Provinces and we anticipate that it will find acceptance as a uniform Provincial Securities Act. Uniformity of regulation for Canadian capital markets is an important objective which we share with the other Provinces. In this regard, the New Act which I will introduce today will make unnecessary recent draft legislation at the federal level which was designed to implement the 1969 Mutual Funds Report. Our New Securities Act will achieve the same result but within the more comprehensive and systematic context of general securities legislation which is possible only at the Provincial level.

Finally, we believe that there is a need for further measures to protect the individual investor in securities markets. Investors have the right to expect these measures. At the same time, the liquidity and efficient allocation of capital we require from our capital markets depend upon investor confidence in the protection he is offered. This New Act will certainly help to support and increase confidence in the securities market.

The regulation of the securities industry in Ontario has, from its inception, been designed to prevent fraudulent conduct in securities trading and to provide adequate and timely disclosure to the market. The major changes proposed in this New Act will reinforce these two principles.

Insider trading provisions will be strengthened by extending them to all reporting issuers without regard for the form of business organization. Reporting issuers will be considered insiders of themselves to parallel changes in corporate legislation permitting companies to purchase their own shares. Mutual Fund Management and distribution companies will be defined as insiders of the Mutual Funds they manage or distribute. Insider liability will be extended to any person who acts on the basis of confidential information. There will be a general prohibition against tipping insider information and against trading based upon such information.

The self-dealing prohibitions of the Mutual Fund Report have been included in the New Act. Mutual Funds will not be allowed to make loans to their officers or directors, its management or distribution company or their associates. Compensation to associates not described in the prospectus will be prohibited as well as self-dealing or insider trades in fund portfolio securities. A statutory standard of care in the management of a mutual fund will take effect and undue concentration of the assets of a fund will be prohibited.

Changes have also been made in disclosure requirements and general trading procedures to put existing and prospective investors in a better position to make intelligent decisions. A reporting issuer has been expanded to include corporations offering securities to the public under The Business Corporations Act on the principle that The Securities Act should be all inclusive in the area of investor disclosure. Provisions for disclosure will apply to all issuers, unincorporated as well as incorporated and they will also be expanded to include issuers outside Ontario which have obtained debt financing through a prospectus, as well as equity.

To the present requirements of reporting issuers such as regular financial reports and an annual information circular has been added the concept of statutory timely disclosure.

Mutual funds will be required to provide a confirmation of sale containing special information such as the price of the share per unit, the amount deducted for sales charges or service fees and the fees payable upon redemption or surrender, if any. Additional requirements will apply in the confirmation of a trade under a contractual plan. The importance of the information contained in the confirmation of trade cannot be overestimated because the period during which the trade may be cancelled begins when the confirmation is received.

The present requirement that registered advisers disclose any financial or other interest they have in securities which are the subject of a written communication has been extended to include dealers and disclosure for the adviser's partners, directors and officers and any others who would be insiders of the adviser if it were itself a reporting issuer of securities. The purpose of this change is to require registrants of the Ontario Securities Commission to disclose conflicts of interest to the public.

Investment decisions are often made on the basis of information contained in advertising and sales literature used by a registered dealer rather than the prospectus. Under the New Act, the Ontario Securities Commission may require copies to be filed with it, and the Commission will have the authority to prohibit use if it finds the material to be deceptive or misleading.

Mr. Speaker, these are only a few of the many substantive changes which this New Act will bring into being. We believe that the small investor will directly benefit from these new requirements.

Whether or not we invest directly as individuals, the securities industry plays an important part in our lives. Through the New Securities Act and the activities of the Ontario Securities Commission, we hope to increase public confidence and assurance in the value, fairness and efficiency of our capital markets.

Thank you Mr. Speaker.
